EXAMINER'S AMENDMENT

1. An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. § 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the Issue Fee.

Authorization for this Examiner's Amendment was given in a telephone interview with Mr. Gerald T. Bodner, Reg. No. 30,449, on Monday, February 21, 2005.

2. Cancel claims 1-9 and 11-18.

Drawings

3. The drawings filed on August 25, 2000 are acceptable subject to correction of the informalities in compliance with 37 CFR 1.121(d). In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

Allowable Subject Matter

4. Claims 10 and 19 are allowed.

5. The following is an Examiner's Statement of Reasons for Allowance:

In interpreting the claims, in light of the specification and the applicant's arguments, the Examiner finds the claimed invention to be patentably distinct from the prior art of record.

Art Unit: 2141

The prior art of record teaches the invention substantially claimed. However, the prior art of record fails to teach or suggest individually or in combination a system and method for managing licenses for protected software on a communication network comprising detecting attempts to tamper with an internal clock of the requesting client computer and invalidating the commuter authorization if tampering is detected. The Examiner finds the applicant's arguments in pages 9 and 10 of the amendment filed January 10, 2005 to be persuasive. The applicant argued in substance that Schneier et al., either alone or in combination, does not teach a system and method comprising detecting attempts to tamper with an internal clock.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul H Kang whose telephone number is (571) 272-3882. The examiner can normally be reached on 9 hour flex. First Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rupal Dharia can be reached on (571) 272-3880. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
